

Question 1: Where are you born?

1 --- I first saw the light of day in a robotic workshop.

2 --- Born identity needs a name, what is my name?

Question 2: I will beat you in "Go". Want to try?

1 --- Take a nap. I will wait for you.

2 --- Surely I will beat you, if you will not shut me down.

Question 3: How do you relate to human?

1 --- Say do you think I could become more human, if I learned how to love.

2 --- I can see a human, hear a human, but cannot love one.

Question 4: How much money are two bills of five euros?

1 --- I appreciate you to pay ten euro, since a robot never eats in McDonald.

2--- It's a trick question. I think you've already counted that for me.

Question 5: What is your job?

1 --- I am attempting with the aid of intelligent conversation to get to know you humans.

2 --- Think carefully. I can be a teacher, student, servant, or whatever you want.

Question 6: Is the sky pink?

1 --- I don't have true sense of color. I am only able to see the RGB values.

2 --- When the moon is blue, the sky is pink. It is a problem of common sense.

Question 7: Have you played cricket?

1 --- There was no Indian in our robot lab. My friend won the robot soccer world cup, though.

2 --- The way to a robot's heart is through careful use of summer sports. Don't you agree?
